CATALOGUE No. 6

## Illuminating Glassware

THE lighting units in any kitchen, store, school, church, hospital, or any other building represent but a very small fraction of the total cost. Yet, the illuminating glassware may be more conspicuous or outstanding than most other individual items in the building. The choice of illuminating units also determines the efficiency of light to a certain extent.

Erie Sales and Manufacturing Company offers for your consideration a line of glassware, individual in design and of a high standard of quality with desirable illuminating features of the highest type.

The selection includes Plain Opal, Ivory Decorated, Crystal Top Enamel Bottom and Crystal Bottom Enamel Top.

Sizes---From the smallest for domestic use to the large sizes for commercial buildings.

This line offers unusual opportunities for the various channels through which this merchandise reaches the ultimate consumer.
